

Dear Parents,

West Holmes is currently working in conjunction with village and county safety agencies to pursue a funding source through the Ohio Department of Transportation (ODOT) called Safe Routes to School. We will be pursuing grant money aimed to encourage K-5 students to walk or bike to school.

Part of the grant process is to collect feedback from parents. If you could take a minute to go to the following website to complete a brief survey, it would be very helpful in our planning endeavors.

https://odot.formstack.com/forms/srts_parent_survey

(Once on this page, type in the school name and select West Holmes from the drop down menu.)

Thank you for your input.
